

Online Webinar
Reckoning impact of changing climate upon Agricultural Water
at
Celebration of World Water Day
Value of Water
(22th March, 2021)

Organizer: Dr. Muhammad Saifullah

World Water Day is an annual United Nations (UN) observance day held on 22 March that highlights the importance of fresh water. The day is used to advocate for the sustainable management of freshwater resources. The theme of each day focuses on topics relevant to clean water, sanitation and hygiene (WASH), which is in line with the targets of Sustainable Development Goal 6. In 2020, the theme was "Water and Climate Change". In 2021, the theme of world water is value of water
