Major selection Webinar organized by CDC

Major selection is an important decision for students of B.Sc. (Hons) Agriculture students after completing 4 semesters of general Agriculture study. It determined their future career planning. Most of the Agriculture graduates need guidance in this regard. To solve this problem we organized a webinar for the students of 4th semester B.Sc. (Hons) Agriculture for the selection of major subject in which all the heads/representatives of the departments offering major subject delivered comprehensive presentations for student's guidance. This year eleven major subjects are being offered. This event was organized on August, 4th 2021 online with Zoom link, Chaired by Prof. Dr. Shafqat Saeed (Dean, Faculty of Agriculture and Environmental Sciences). Dr. M. Ishtiaq (Focal Person, CDC/PB) delivered a comprehensive lecture regarding different activities of CDC/PB and importance of major selection seminar. Heads/Representatives of all departments i.e., Agricultural and Resource Economics, Agronomy, Biotechnology, Entomology, Food Science & Technology, Horticulture, Farm Management, Plant Breeding & Genetics, Plant Pathology, Seed Science & Technology and Soil & Environmental Sciences addressed to the students and tried to convince them by delivering comprehensive presentations regarding benefits of selecting their major subject, strengths of their respective department, scope and job opportunities for future to attract students. Dr. Usman Jamshaid briefed the procedure of filling proforma for major selection. At the end Prof. Dr. Shafqat Saeed, addressed to the students and shared some experiences and asked the students to carefully decide their major subject as it will determine their future and appreciated the efforts of CDC/PB for organizing this event for student's guidance.
